**Subject:** Public Consultation for the PDP (Amendment) Bill

I am a public and I want to feedback on PDP bill.

You all should make it compulsory for the company to have a opt out option for all SMS spam or else you all will immediately issue penalty at company level.

I have receive a few sms asking if "I am a landlord and if I have HDB to rent" with no options to unsubscribe to this spam sms.

First thing first I am NOT even a landlord in the present or the past. How does those company get my number and keep on asking me if I want to rent out my HDB ?

Example if ERA agent Alice ask if I want to rent out HDB, I reply unsubscribe. All agent under ERA should not sms me in the future. So it must be targeted at company level and also individual level. I don't want incident I unsubscribe from ERA Alice and another ERA agent Tony start sending me another round of sms if I have HDB to rent.

Also you all should immediately penalize those spam sms that fail to disclose their company name in their spam to better track the source of the spam.

Attached is an example of the spam sms I receive.

Regards  
Alex
